

IEEE WORKSHOP ON GEOSCIENCE AND REMOTE SENSING | IWGRS 2020

"Remote Sensing for Health and the Environment"

CALL FOR PAPERS

Virtual Workshop, 24 November 2020

The 7th series and the first online workshop of our yearly event aimed at providing a forum for IEEE Geoscience & Remote Sensing (GRSS) members to share their knowledge and experiences on recent developments and advancements in geoscience and remote sensing technologies, particularly in the context of Remote Sensing for Health and the Environment.

Topics include but are not limited to:

Geoscience and Remote Sensing Technologies, Environmental and Disaster Monitoring, Land Cover Classification and Mapping, Radar Systems and Applications, Global Navigation Satellite System (GNSS), Microwave Components and Systems, Communication Systems, Surveillance Technologies

FREE REGISTRATION

Abstract Submission Deadline:

15 August 2020

Notification of Acceptance:

15 September 2020

Full Paper Submission Deadline:

19 October 2020

IWGRS 2020 date:

24 November 2020

Organised by:
