

IEEE Workshop on Geoscience and Remote Sensing 2025 (IWGRS2025)

Advances and Emerging Trends in Remote Sensing

12 November 2025

Venue: Universiti Teknologi Malaysia (UTM), Johor Bahru, Johor

ORGANISED BY

CALL FOR ABSTRACT

<https://grss.ieeemy.org/iwgrs2025/>

IWGRS2025 marks the 11th edition of our annual workshop, serving as a dedicated platform for IEEE Geoscience & Remote Sensing (GRSS) members to exchange insights, expertise, and the latest progress in geoscience and remote sensing technologies.

With the theme “*Advances and Emerging Trends in Remote Sensing*,” this year’s workshop warmly welcomes your participation and collaboration as we work together towards innovations that benefit humanity.

TOPICS

- Geoscience and remote sensing technologies
- Radar systems and applications
- Global Navigation Satellite Systems (GNSS)
- Microwave components and systems
- Communication systems
- Surveillance technologies
- Data analysis methods
- Environmental and disaster monitoring
- Land cover classification and mapping
- Smart and green cities
- Geospatial technologies for monitoring the impact of development

IMPORTANT DATES

Abstract Submission Deadline:
25 September 2025

Notification of Acceptance:
7 October 2025

Extended abstract Submission
Deadline:
31 October 2025

ABSTRACT SUBMISSION

Authors interested in presenting are invited to submit an abstract in accordance with the guidelines provided on our workshop website: <https://grss.ieeemy.org/iwgrs2025/>

REGISTRATION FEE

Participant	Normal	Non-Presenter
Regular	RM 200	RM 50
Student	RM 100	RM 50
